Seed Encryption Worksheet

12 words | 132 bits | 33 hex characters | 11 four-bit chunks per table

XOR

Seed bit	0	0	1	1
Pad bit	0	1	0	1
Result	**0**	**1**	**1**	**0**

HEX	**0**	**1**	**2**	**3**	**4**	**5**	**6**	**7**	**8**	**9**	**A**	**B**	**C**	**D**	**E**	**F**
BITS	0000	0001	0010	0011	0100	0101	0110	0111	1000	1001	1010	1011	1100	1101	1110	1111

Chunks 01-11

Bits 001-044 / Words 01-04

	WORD 01			WORD 02			WORD 03			WORD 04		
Seed word												
Binary seed												
One-time pad binary												
One-time pad hex												
XOR result												
Hex seed	01	02	03	04	05	06	07	08	09	10	11	

Chunks 12-22

Bits 045-088 / Words 05-08

	WORD 05			WORD 06			WORD 07			WORD 08		
Seed word												
Binary seed												
One-time pad binary												
One-time pad hex												
XOR result												
Hex seed	12	13	14	15	16	17	18	19	20	21	22	

Chunks 23-33

Bits 089-132 / Words 09-12

	WORD 09			WORD 10			WORD 11			WORD 12		
Seed word												
Binary seed												
One-time pad binary												
One-time pad hex												
XOR result												
Hex seed	23	24	25	26	27	28	29	30	31	32	33	

Encrypted hex Copy the hex digits above, in chunk order 01-33.

01 02 03 04 05 06 07 08 09 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29 30 31 32 33
